

ADHESION SHEET TO THE FIREFIGHTING OPEN INNOVATION LAB OF THE CILIFO PROJECT

CILIFO (www.cilifo.eu) is a cross-border cooperation project between Spain and Portugal which falls under the Thematic Objective 5 of the POCTEP Operational Programme: 'Promoting adaptation to climate change in all sectors', as well as Investment Priority 5b 'Promoting investment to address specific risks and ensuring adaptation to disasters and development of disaster management systems'.

In particular, its objectives are:

- To strengthen and unite cooperation, working procedures and training between the Forest Fire Prevention and Extinction mechanisms in the cooperation area of the Euroregion Alentejo-Algarve-Andalusia.
- To promote the creation of lasting and quality employment in the area; to reduce the economic cost of fires by creating a rural economy linked to the landscape.
- To improve the response capacity to forest fires of the administrations and authorities involved in fighting them in the three participating regions.

The company **is interested / seeks to participate** in the **Firefighting Open Innovation Lab**, supporting its objectives aimed at preventing and fighting fires. Therefore, it will be considered as an entrepreneurial entity adhering to **CILIFO's Open Innovation Lab** programme, receiving support services from **FINNOVA**.

FINNOVA will provide support services, promoting the development of the **Entrepreneur** and thus fostering innovation within the **CILIFO Open Innovation Lab**. The services offered will be the following:

1. POSSIBILITY OF PILOT TESTING AND SCALING. There will be the possibility of inviting entrepreneurs to take part in European project consortiums related to CILIFO's themes. If the projects are approved, the entrepreneur will have the opportunity to test their technologies within the framework of the project.

2. CATALOGUE AND WEBSITE. The projects of the companies are included in the FOIL technology catalogue, which will be published on the website and sent by post to all the partners, so that they have information on other similar technologies and can contact and create synergies between them. They also appear in the accelerated companies' section of the FOIL website.

3. MENTORING AND ADVICE. Online and face-to-face advice, through specialised mentors, for the search for European funding, with the aim of bringing innovative projects to market, including participation in training programmes and attendance at workshops and seminars organised by FINNOVA within the framework of **CILIFO's Open Innovation Lab**.

4. SENDING OF INFORMATION ALERTS. Personalised information alerts will be sent regularly on news and calls for proposals of interest to the entrepreneur, via e-mail with written documents and/or web links of interest.
