GOOD GOVERNANCE, SELF-PROTECTION AND GREEN JOBS (ACTIVITY 1) AND COMMUNICATION (ACTIVITY 6)

The firefighting open innovation lab CILIFO, the first accelerator in the field of firefighting, prevention and extinction, works on the dissemination of common intervention protocols between Spain and Portugal and on the importance of generating patents and intellectual property protection around these topics, in order to generate good practices and collaborate in the green transition, which requires the management of waste that encourages the production and spread of fires.

9h:15 (Lisbon hour)
9h:35 (Lisbon hour)
